REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding to claims 34-38, in combination with all the limitations recited in the independent claim, all the prior arts do not show an optical ribbon comprising at least two sub-units having at least one optical fiber and a primary matrix and an outer matrix comprising separate regions of a first matrix material adhered respectively to each of the fiber sub-units and a connecting region of a second matrix material joining adjacent fiber sub-units together.

Regarding to claims 39-41, in combination with all the limitations recited in the independent claim, all the prior arts do not show an optical ribbon comprising a plurality of optical fibers and a matrix covering, which encapsulates and binds together the optical fibers, including a plurality of different colored regions formed of a first matrix material and bounded respectively to the plurality of optical fibers and a second matrix material that intercedes between and maintains the colored regions substantially separate from one another. The first matrix material adheres to the optical fibers with a greater tenacity than the second matrix material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
